*Information. Control. Convenience. All waiting at your finger tips.*

Running a business can be overwhelming but with Paymaster's Green Services you can now have a paperless payroll system with increased security to protect your company and employee information.

### Paymaster Online | Payroll

A powerful Web-based payroll solution designed to streamline payroll operations while enhancing flexibility, security and control. This dynamic product enables you to maintain control of your payroll while providing the ultimate in convenience with 24/7 access.

**Electronic transfer of your payroll data** via the Internet.

**Receive live checks and payroll reports** via the internet.

**Multi-tiered security.** Managers and supervisors can access only their own departments.

**Ease of use.** Wizards walk you through the process.

### Employee Services | HR Info System

Let your employees access the information they want 24/7. Your employees can even view/print their check stubs and W-2s online! All while you save time and resources.

**Seamless integration** between data, payroll and HR modules.

**Password protected.** Ensures appropriate access to information.

**Track career information** including salary, training and career development.

**Track employee personal information** including emergency contact, address and life event changes.

**Build and maintain tiered benefits.** Accurately record employee and employer contributions.

### Time Tracking

Speed up payroll and effectively manage time and attendance across a distributed work force. This tool allows employees to enter hours worked anywhere 24/7.

### General Ledger Interface with QuickBooks®

Online access to payroll data with every payroll. You save time, reduce errors and increase flexibility.

**Wizards guide you** thru a one-time set-up to map your accounts and payroll.

**Distribute payroll expenses** to multiple accounts and/or departments.

**Direct online access** by your accountant or auditor.

**Instantly generate a payroll data file.** You receive a file that you can apply directly to your ledger.

**No third party involvement** to apply payroll data to your general ledger.
