

Making Payroll Simple

Comprehensive and customized solutions.

Payroll your way

Paymaster Payroll offers complete and customized payroll and payroll tax solutions designed with your company's rules in mind. With the professional expertise and technical resources offered, we'll help you handle your administrative needs while freeing you to attend to your bottom line.

We Make Payroll Simple

All you need to do is collect your payroll information. We will provide the method to record the hours, earnings, employee updates, and additional reporting items. We have multiple options for reporting payroll to us: by telephone contact with one of our payroll specialists, by fax, or via the internet utilizing our secure web based Paymaster Online. The choice is yours. All our solutions are designed to speed up your handling of payroll information.

Whichever choice you make for reporting payroll, your employee pay (by either check or direct deposit) and reports are processed and delivered to you by bonded courier. And, should you require assistance between payroll dates or after payroll has been delivered, our payroll specialists are always available to you via our toll-free customer service line.
