Time and Attendance

A better work force management tool.

Speed up payroll and effectively manage time and attendance across a distributed work force. This tool allows employees to enter hours worked from anywhere, 24/7. The time sheets allow both the employee and manager access leave balances at their fingertips. Whether you use an advanced biometric hand or fingerprint reader or simple badge reader, the setup can be done by you quickly and easily.

Accurate time collection. Reduce labor costs up to 5%.

Flexibility. Customize a time management system to best fit your companies needs.

Reduce payroll preparation time. Eliminate manual calculations.

Eliminate paper. Streamline your leave request and approval process.

Easy to use reporting. Receive critical payroll, scheduling and historical trends.

Tailored reports. Receive data fit to our organizations specific needs.
